The Jordi Bertran Company

From its origins to the present

A Little story

In 1977, Jordi Bertran met a group of puppeteers from Barceloneta, the "Grupo Taller de Marionetas", directed by Pepe Otal, discovering with him the power of fascination and the ability of puppets and puppets to communicate.

Later, he was part of two animation theater groups "El Col·lectiu d'Animació de Barcelona" (1978), directed by Carles Cañellas, and "Els Farsants" (1979-1987), of which he was co-founder .

In 1987 he founded his own company, with the intention of spreading the art of the puppet and reaching, preferably, the adult public.

Thanks to the efforts of many artists and collaborators, **The Jordi Bertran Company** is one of the most recognized and prestigious in our country.

He has won numerous national and international awards.

He has participated in the most important performing arts festivals in the world, toured more than fifty countries, and worked on television programs around the world.

On the teaching side, Jordi Bertran offers courses in the construction and handling of puppets, in his **Taller del Parc**, in Barcelona. He also gives and has given international courses for many countries.

The Companyia Jordi Bertran is currently made up by:

El Taller del Parc

El Taller del Parc, is a centre in Barcelona, is the space of creation of Jordi Bertran Company, where it is constructed, gives life and there are stored all the marionettes and the spectacles of the company. Also it is a center that offers training workshops in different areas of puppet theatre: construction, handling, but also lighting, costumes and other applied techniques. With the collaboration of professionals related to the Company, it provides both a space for creation and rehearsals for other puppet companies.
